Certificate details

Treatment class : Class B-IV.

Influent wastewater Temperature: The tests specified in sections 8.3 and 8.4 were carried out with influent wastewater at a minimal controlled temperature of 11 °C ± 1 °C.

Other : The primary treatment can be used with or without effluent pre-filter. For BTT models, the primary treatment can consist of a tank (with or without pre filter) having a partition wall. The minimum retention time for this primary treatment should then be 1.5 days.
