

NOTICE OF MODIFICATION TO THE REQUIREMENTS OF THE CERTIFICATION PROGRAM

BNQ 2410-300- PRODUCTS USED AS DUST CONTROL AGENTS AND STABILIZERS FOR NON ASPHALTED ROADS AND OTHER SIMILAR SURFACES

Date

2026-03-30

Update to the BNQ 2410-300 Certification Program in reference to standard BNQ 2410-300/2025 and certification requirements document BNQ 2410-300/2026

The purpose of this notice is to inform you of:

- the update of the BNQ 2410-300 certification program, now offered in reference to standard BNQ 2410-300/2025 and the certification requirements document BNQ 2410-300/2026;
- the terms and conditions of the transition period offered to manufacturers to allow them to comply with the new requirements set forth in the 2025 edition of the standard BNQ 2410-300 and in the 2026 edition of the certification requirements document BNQ 2410-300.

The certification program referencing the 2025 edition of the standard BNQ 2410-300 is now governed by the requirements presented in certification requirements document BNQ 2410-300/2026. This document provides clarifications regarding the general rules of procedure in information document BNQ 9902-001. It also outlines BNQ's specific intervention conditions and the specific requirements that manufacturers must meet as part of the certification program.

The terms and conditions governing the transition period are as follows:

- Starting **April 1, 2026**, any new application for certification will be processed based on the certification program's new requirements.
- Manufacturers already holding a certificate of conformity, or who currently have an open file with the BNQ, will not need submit a new application.
- Starting **April 1, 2026**, BNQ's periodic inspection visits scheduled for summer 2026 may be conducted under the new certification program requirements, and certificates of conformity referencing the 2025 edition of the standard will be issued when manufacturers demonstrate compliance.
- Starting **April 1, 2026**, BNQ's periodic inspection visits scheduled for fall 2026 will be conducted under the new certification program requirements, and certificate of conformity referencing the 2025 edition of the standard will be issued to manufacturers that demonstrate compliance.
- Updating a manufacturer's certificate of conformity based on the new certification program requirements will allow its continuation. The expiry date of the updated certificate will be the same as the expiry date of the certificate of conformity held under the 2009 edition of the standard.
- **April 1, 2027**, is the deadline for manufacturers holding a certificate of conformity referencing the 2009 edition of BNQ 2410-300 to demonstrate compliance with the new program requirements.
- Starting **May 1, 2027**, the BNQ will withdraw all valid certificates of conformity referencing the 2009 edition of the standard. After that date, manufacturers seeking certification will need to file a new application with the BNQ, and application fees will apply.
